LONG-ACTING REVERSIBLE CONTRACEPTIVE (LARC) CLINICAL STAFF TRAINING

who

Clinical staff (RN, LPN, MA) who assist family planning providers that serve patients ages 18 and under.

what

The upcoming training sessions are focused on providing clinical staff the most up-to-date information on LARC, patient centered counseling, and hands-on clinical skills for assisting with LARC procedures.

where

The program is offered through a partnership with the following training sites:

- University of Oklahoma Health Sciences Center, Clinical Skills Education and Testing Center (CSETC) in Oklahoma City
- Oklahoma State University Center for Health Sciences Clinical Skills and Simulation Center (OSU) in Tulsa
- University of Oklahoma Tulsa Simulation Lab (SCOUT)

LARC fast facts

- ▶ IUDs and contraceptive implants are more than 99 percent effective. This makes them ideal options for preventing unintended pregnancies.
- ▶ IUDs and implants are reversible and safe for use in most women, regardless of age or previous pregnancies.
- ▶ IUDs and implants are low maintenance and discreet, making them popular birth control choices among women of childbearing age.

Coming in July 2019.....

ADMINISTRATIVE STAFF TRAINING

Administrative staff training will be designed for all office personnel (e.g. financial managers, clinic managers, front office staff, billing/coding staff, etc.). It will feature an overview of LARC, patient-centered communication techniques for office staff, insurance coverage for LARC, inventory management, billing/coding, and more.
